

Color temperature	5000K
Color rendering index	Ra70
1/2 beam angle	2.5°
Center luminous intensity	466.410cd
Wind pressure resistance	60m/s
Projected area	0.046m ²
Waterproof and dustproof	IP66
Impact resistance	IK08
Weight	3.1 kg
Body color	Charcoal gray

Input voltage	100~240VAC
Power consumption	16.9W (100VAC)
Input current	0.187A (100VAC)
Frequency	50/60Hz
Operating temperature	-20℃~50℃

CAUTION:

- This product is for general outdoor or indoor use only.
- The wind pressure resistance is 60m / s. Do not install in places where the wind speed exceeds it to avoid fall of the fixture.
- The product must be used with the specified input voltage and frequency.
- The product must be used at an ambient temperature of -20 to 50 °C. During the daytime, do not use it except for temporary operation check.
- When the product is used in cold areas, do not install at places where icicles can fall.
- The product surface becomes hot during operation or immediately after it is turned off. Be careful when touching the product.
- Do not install the product in places containing sulfur component such as hot spring.
- Do not install the product towards the sun. Concentrated sunlight may damage the LED and result in malfunction or fire.

⚠ WARNING

- This product must be installed in accordance with the installation instructions to avoid malfunction, fall of the fixture, electrical shock or fire.
- Do not use the product in places where the humidity exceeds 90% RH, vibration or shock are transmitted to the fixture, there is much oil mist or corrosive gas, or indoor pools that use chlorine.
- Do not disassemble or modify the fixture
- Do not operate the product when it is damaged.
- If there are abnormalities found in the product such as smoke or unusual odor, disconnect power immediately and contact dealers.
